c. Two-Letter US State and Foreign Country Abbreviations. These abbreviations are for use within and between US military service components only. Do not use abbreviated address elements to Allied National or International Pact Organization (IPO) environments. Two-letter US State abbreviations were incorporated from those prescribed in the USPS National Zip Code Directory. Two-letter Foreign Country abbreviations were developed from the following publications:

(1) Allied Communications Publication (ACP) 198 US SUPP-1(A).

(2) Department of Defense (DOD) Publication 5105-38-M, Military Assistance and Sales Manual-Part III.

Where differences between the ACP and the DOD publication occurred, the DOD abbreviation was used. Where ACP/DOD abbreviation conflicted with USPS two-letter State abbreviations, the country involved was spelled out. The only exception was Germany and this issue GE is used throughout.

d. Two-letter Abbreviations for Canadian Provinces and Territories. For use with official mail addresses. US State and Foreign Country abbreviations for correspondence and messages can be determined by locating the appropriate organization in this manual.
